

I've learned that LPFM stations may be given airtime priority over an FM station that is very important to myself, my family, and my community as a whole. That station is K-LOVE, a contemporary christian station. Please consider the contribution that such a station makes to us in Oklahoma City, where family friendly music is hard to come by. We can count on this station to provide time for worship to our busy family, and nothing inappropriate to our children's ears is ever said. I hope that our concerns will be considered in this decision. Sincerely,
